# CHANDAN J

## Senior Software Engineer

Bangalore, Karnataka • +91 89515 83569 • chandanj905@gmail.com • linkedin.com/in/chandan-j-4a02931a2

Results-driven and highly skilled software engineer with 2.5+ years of experience in designing, developing, and deploying scalable applications. Adept at working with Kubernetes, Golang, Node.js, and front-end technologies. Seeking a challenging role to contribute technical expertise and innovation to a dynamic team.

## WORK EXPERIENCE

**Senior Software Engineer ( August 2021 – Present )**

Bangalore,Karnataka

- Developed microservices using Golang and NodeJs, ensuring efficient data processing and system performance.
- Played a pivotal role in successfully migrating the product from traditional EC2 infrastructure to Amazon EKS (Elastic Kubernetes Service)
- Developed and implemented tools to test and analyze the scalability of the product, ensuring optimal performance under various conditions.
- Paired with fellow engineers to brainstorm ideas, debug problems and review code.
- Experience with React.js and backbone.js for developing structured and maintainable front-end applications.

## EDUCATION

**Jyothy Institute of Engineering (2017-2021),** Bangalore, Karnataka
Bachelor of Engineering - Computer Science

## PROJECTS

- **Door Lock Security System using IOT.**
  Led the programming efforts for a cutting-edge Door Lock Security System leveraging IoT technology.
- **Online Newspaper Delivery System**
  The project aimed at revolutionizing the newspaper delivery experience by leveraging modern web tech.

## SKILLS & OTHER

**Programming Languages** : Javascript, GoLang, Python
**Frameworks and others** : Node.js, Docker, Kubernetes, AWS, MySQL, MongoDB, Express.js, Django, React.js, HTML/CSS, Locust, Selenium, Git, MicroServices, WebSockets
