Results-driven and highly skilled software engineer with 2.5+ years of experience in designing, developing, and deploying scalable applications. Adept at working with Kubernetes, Golang, Node.js, and front-end technologies. Seeking a challenging role to contribute technical expertise and innovation to a dynamic team.

PROFESSIONAL EXPERIENCE

Senior Software Engineer
Ushur, Bangalore
August 2021 - Present

- Developed microservices using Golang and NodeJs, ensuring efficient data processing and system performance.
- Played a pivotal role in successfully migrating the product from traditional EC2 infrastructure to Amazon EKS (Elastic Kubernetes Service)
- Developed and implemented various tools to test and analyze the scalability of the product, ensuring optimal performance under various conditions.
- Collaborated with cross-functional teams to troubleshoot and fix complex issues in the product, resulting in a 25% reduction in incident response time.
- Successfully patched and addressed critical security issues reported by penetration testers and security researchers, demonstrating a rapid and effective response to external security assessments.
- Conducted technical RCAs for critical incidents, providing comprehensive reports to stakeholders and contributing to preventive measures.
- Actively participated in code reviews, ensuring adherence to best practices and maintaining high code quality standards.

EDUCATION

Bachelor of Engineering
Computer Science and Engineering
Jyothy Institute of Technology
Bangalore, Karnataka
2017-2021 (8.28 CGPA)

SKILLS & PROFICIENCIES

- JavaScript, GoLang, Python, HTML/CSS
- Node.js, Express.js, React.js, Backbone.js
- Docker, Kubernetes
- MongoDB, MySQL
- Locust, Selenium
- Git
- Teamwork, multitasking, and attention to detail
- Software and web development

AWARDS & RECOGNITION

- Awarded for outstanding contributions to the "ScaleR" project.
- Received the "Zero Downtime Excellence" award for achieving seamless and zero downtime upgrades during critical system update.
